CAREFREE BOATING

## Schotman Marine

Tenderline Schotman Marine develops aluminium boats with a focus on 'functionality', 'design' and 'affordability'. By combining durable, maintenance-free materials with a streamlined design Tenderline assures carefree boating. The art of constructing vessels within the Schotman family has passed from father to son. Founder Yvo Schotman proudly continues this tradition. The Tenderline aluminium boats are fully produced in-house. All Tenderline aluminium boats are therefore a 'pure' and 100% Dutch product.

Please contact us for a tailor-made offer.

Delivery time about 8 to 14 weeks depending on specifications.

Price changes and misprints reserved

## Rascal, it's all about the name

### Small and powerful

Awaken the mischievous child in you and enjoy all the fun the Rascal has to offer. An aluminium boat fit for those with an adventures spirit. Relatively little power is enough to make it plane. With a little extra power the fun-factor

rises even further. And even the most experienced skippers will

have their hands full when driving the Rascal with maximum horsepower. Fun-boat, dinghy or as a fishing boat; the Rascal is multi-purpose and will please all.
